

The FAA Safety Team presents:

Planning to Walk Away

This Safer Skies Video will present a process of survivability with three phases: preparing not to crash, or preventing the accident in the first place; handling the actual emergency and, actually surviving the elements after the dust settles. Whether you are dealing with a Precautionary Landing, Forced Landing or Ditching, come learn some things that may help you survive an unplanned emergency or engine failure which results in an off field event. Please register for this event on-line by clicking on the link below!

Directions: Please see map link for directions, seminar will be in hangar.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASteam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
